

## Current Federal Enterprise Architecture Documentation

Documents related to the Federal Enterprise Architecture (FEA) reside on two separate web sites. In general:

- draft documents are posted to the Secure CIO Council site (<http://cio.gov>); and
- documents that describe published versions of the reference models and the role they play in agencies' Capital Planning and Investment Control efforts ("Release Documents"), as well as budget-related guidance related to the FEA are posted to the FEA Home Page (<http://www.feapmo.gov>).

Additional details are presented in the table below.
